

# All-in-one service solutions

**FOERSTER is expanding its service portfolio and now also offers services for ultrasonic systems from third-party manufacturers.**

## **Service description**

Above and beyond the full range of services for your FOERSTER equipment, our expanded service portfolio allows our specialists to offer you **repairs, maintenance, calibrations and inspections** on equipment from other manufacturers.

Of course, we provide all services in accordance with the high FOERSTER quality standards that you have come to know and trust. And, according to your individual needs, we can offer you a tailored service contract

or you can book specific services individually with our specialists. Please feel free to contact us at any time. Together, we'll find a customized solution for you.

## **The benefits**

- A single point of contact for servicing all of your NDT equipment.
- All services carried out in accordance with the latest regulations.
- Comprehensive service reports and logs.
- Recommendations for preventive maintenance and repair measures.
- Synergies and savings through simplified commissioning.

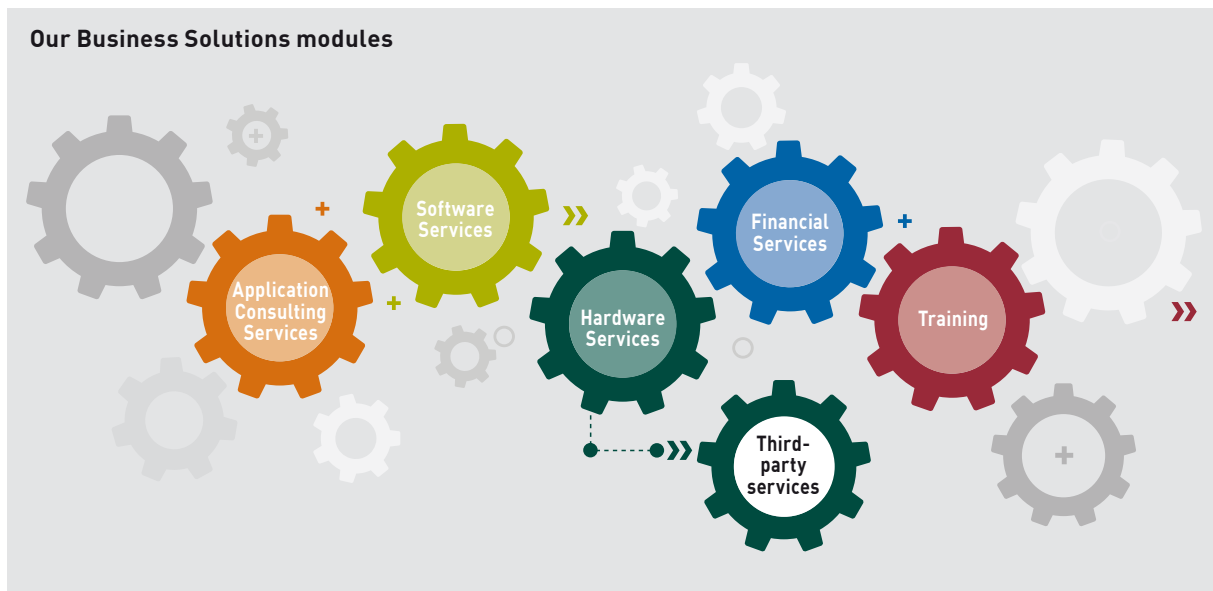

Our services are carried out on your premises by service professionals with many years of specialist experience. They always verify that your test and measurement systems comply with all regulations and performance parameters.

This ensures the preservation of the high quality of your systems and installations.

**Optionally, we can keep track of when the next service is due and automatically arrange the next appointment with you.** You can focus on your core competencies, enjoy greater process reliability – and still always be well prepared for your next audit.

- Cycle:** We recommend annual calibration of your test and measurement systems.
- Contract period:** Flexibly selectable from 24 to 84 months (also possible as an individual assignment).
- Extension modules:** Maintenance

**24/7 service hotline**

Our service hotline is available for emergencies around the clock on +49 7121 140 222 or via our contact form (see QR code).

The FOERSTER Group is being represented by subsidiaries and representatives in over 60 countries – worldwide.
